Technical Summary: Dundas BI, SQL Server, SSRS (OLAP), C#, CSS3, HTML5, JQuery, JavaScript, Microsoft Excel

Junior Web Developer

APRIL 2014 - APRIL 2015

Brushfire North Inc

Toronto, ON

- Junior developer with Brushfire North Inc, working with ASP.NET (both MVC and Web Forms)
- Worked both as a back-end developer and front-end developer for the company, focusing 60% of my time as a front-end developer
- The company worked closely with Agility CMS for their clients. In addition to being a developer, I did design work, producing PSD mockups for desktop and mobile projects

Technical Summary: ASP.NET MVC 4, C#, CSS3, HTML5, JQuery, JavaScript, TFS, SVN, Adobe PhotoShop CC 2014, JIRA

PROJECTS

The Office Quiz

<https://github.com/elmi-/office-quiz>

Full-stack project built on a React front-end and Node back-end using officeapi.dev API

Try and test your Office knowledge, <https://the-office-quiz.herokuapp.com/>

Fantasy Radar

<https://github.com/elmi-/FantasyRadar>

Web app that scrapes Basketball-Reference and fetches latest news for users and notifies users via text messages using Twilio API, all built with Ruby on Rails

Scheduler

<https://github.com/elmi-/scheduler>

Scheduling application used for booking interviews, that is dynamically rendered using React!

Data is persisted by an API server using a PostgreSQL database

TinyApp

<https://github.com/elmi-/tinyapp>

TinyApp is a full stack web application built with Node and Express that allows users to shorten long URLs (à la bit.ly)
