ABDI ELMI

SOFTWARE DEVELOPER | BUSINESS ANALYST

Toronto | abdi.elmi@rocketmail.com | 647-821-1942 | https://elmi-.github.io/ | https://www.linkedin.com/in/elmi-/

PROFESSIONAL SUMMARY

Software developer and business analyst with 8+ years delivering web applications and business-intelligence solutions for healthcare and enterprise clients. Proficient in Vue.js, Vite, React, Node.js, Django, SQL, Tableau, and Dundas BI; experienced in data modeling, ETL, dashboard design, and data governance. Combines hands-on engineering, stakeholder collaboration, and a focus on data quality to build reliable, user-centered solutions that support better decision-making.

PROFESSIONAL EXPERIENCE

Full Stack Developer, Dye and Durham **Nov 2022 - Feb 2025**
Toronto, ON

- Led front-end development of the NoticeConnect platform using Vue.js and Vite, delivering scalable, high-performance user experiences aligned with enterprise design standards.
- Contributed to full-stack development by implementing features and improvements within a Django-based application environment.
- Investigated and resolved user-reported issues and support tickets, improving application reliability, performance, and user satisfaction.

Student Mentor, Lighthouse Labs **Mar 2022 - Jul 2022**
Vancouver, BC

- Mentored web development students in JavaScript, React, Node.js, and HTML/CSS through 1:1 technical support sessions.
- Assisted with debugging, problem-solving, and software development best practices.

Business Intelligence Developer, Centre For Addiction and Mental Health (CAMH) **Jul 2019 - Mar 2021**
Toronto, ON

- Developed and maintained Dundas BI and Tableau dashboards and reports supporting clinical, research, and operational decision-making.
- Collaborated with stakeholders to design data models, queries, and integrated reporting solutions, ensuring data accuracy, integrity, and accessibility.
- Led the design and development of the COVID-19 National Survey Dashboard, ensuring alignment with healthcare data governance and privacy standards.

Senior Business Intelligence Consultant, Dundas Data Visualization Inc **Jan 2015 - Jan 2019**
Toronto, ON

- Led end-to-end BI solution delivery using Dundas BI, including dashboard design, reporting, data visualization, and analytics application development.
- Collaborated directly with clients to gather requirements, develop data models, ETL processes, and integrated reporting solutions across multiple data sources.
- Optimized BI architecture, analyzed business data to identify KPIs and performance improvement opportunities, and resolved data and visualization issues.
- Delivered client training and dashboard development workshops for organizations including IBM, CAMH, Pepperidge Farm, and Des Moines University.

EDUCATION

Lighthouse Labs, Vancouver, BC **Oct 2021 - Jan 2022**
Web Development Bootcamp

George Brown College, Toronto, ON **Jan 2012 - Apr 2014**
